Subject: Testimony for 1/16/2018 House Energy Policy Committee

We are young senior citizens and received a shut-off notice from DTE in December of 2016. They said they will shut our power off on December 19th, 2016. We tried to stop them from doing that but they wouldn't listen. We finally agreed to have a non-transmitting meter but we don't want that, we want our analog meter. They shut our neighbors off in the middle of winter without any notice and took two days to turn it back on. Monopolies should be illegal. DTE is a monopoly, we have no other electricity options.

We called senators and MPSC without any help from anyone.
